Tipo	request for redress
Incidente	The mark detached from the bottom of the see and went a huge way down, i was the first boat at the left and when i tacked, 4 minutes after starting, i had to do almost a downwind to reach the mark, and then the reach was almost an upwind because of the detached mark

Lugar	JURY ROOM
Procedural matters	Hearing # 1&2 were heard together under RRS 63.2(b)
Hechos probados	<p>The Mark 1 drifted from its original position during the first windward leg of Race 5. Mark 1's original position was 0.85 nm from the RC boat. Due to an unidentified incident, the anchor rope parted and the mark drifted from the anchor. The RC had only one support boat with a mark setter for the entire course. The mark setter was near the RC boat when the PRO discovered that the mark was adrift. Shortly thereafter boats started to round the mark By the time the first boat, BRA 223024, rounded it, the mark had drifted 0.3 nm.</p>
Conclusión	<p>When the PRO realized the mark was out of position, it was not possible for the mark setter to relocate it to its correct position, replace it with a new one of similar appearance, or substitute it with an object displaying Flag M and making repetitive sounds (Rule 34). There was neither an improper action nor an improper omission by the Race Committee. Therefore, the requirements for redress under RRS 61.4(b)(1) were not met.</p>
